## PROFILE

Frontend Developer skilled in HTML, CSS, JavaScript, React, and Next.js. Passionate about creating responsive, high-performance web applications with clean, efficient code. Adept at designing modern user interfaces and improving application performance. Eager to collaborate in dynamic environments to deliver seamless user experiences and maintain strong code architecture.

## EDUCATION

### Bachelor's degree in Electronic Engineering

07/2022

Faculty of Electronic Engineering, Menoufia University.

**Department:** Computer Science Engineering

**Graduation Project:** Lung Disease Prediction using Machine Learning

**Graduation Project Grade:** (A+)

## WORK EXPERIENCE

### Front End Developer

08/2024 – present

Software Pioneers 📁

Lead a team in developing scalable web applications using React and Next.js, architecting responsive, efficient, and reusable UI components. Collaborated closely with design and backend teams to deliver seamless user experiences, optimizing applications for speed and performance while ensuring high code quality. Implemented state management solutions (Redux/Context API) and server-side rendering (SSR).

### Freelance Frontend Developer

03/2024 – present

Developed responsive websites and web applications using React, Next.js, HTML, CSS, and JavaScript for various clients. Collaborated with designers and backend developers to deliver seamless user interfaces and optimized performance. Enhanced SEO and improved site load times by implementing best practices and using Next.js for server-side rendering. Worked with clients to gather requirements, provide ongoing support, and ensure timely project delivery.

### Quality Assurance Engineer

12/2022 – 12/2023

National Company for Protective Cultivations

Responsible for monitoring, inspecting and proposing measures to correct or improve the final product ensuring that products and services meet the requirements set by the company standards.

## PROJECTS

### - Cure Master (Health Management System) 📁

**Description:** Developed a healthcare platform allowing patients to fill in their details and medical history and request appointments with desired doctors, featuring an admin dashboard and E-mail/SMS notifications

**Technologies:** Next.js, Typescript, TailwindCSS, Appwrite, Shadcn, ReactQuery

### - FilmFlix (Media and Information) 📁

**Description :** Developed a comprehensive platform providing detailed information, ratings, trailers, and reviews for movies and TV shows. Designed and implemented intuitive user interfaces to enhance user experience, with features for browsing content by genre, cast, and release date. Focused on delivering optimized performance.

**Technologies :** React, TMDB API, Chakra UI, Firebase

### - FreshCart (E-Commerce)

**Description :** An E-commerce platform offering a seamless online shopping experience. The platform includes a wide range of features such as product browsing, category and brand filtering, shopping cart management, order processing, and wishlist functionality. FreshCart delivers a user-friendly interface with responsive design and an integrated dark mode, enhancing the overall user experience.

**Technologies :** React, Tailwind CSS, Ajax, Tanstack Query V5, Context API

### - iPhone 15 Landing Page

**Description :** Created a visually engaging landing page that showcases the iPhone 15 through dynamic 3D models, captivating videos, and smooth animations. The project features an attractive, responsive design that leverages advanced web technologies to deliver a high-impact user experience.

**Technologies :** React, Tailwind CSS, GSAP, Three.js, Sentry

### - Yummy (Food Recipes)

**Description :** A responsive website that uses a meal API to display a variety of meals, including their categories, areas, and ingredients. Features a search function allowing users to find meals by name or initial letter. The site also includes video tutorials for each meal, enhancing the user experience with engaging, instructional content.

**Technologies :** HTML, CSS, Javascript, Bootstrap, JQuery

## TECHNICAL SKILLS

---

### Core Frontend Languages

- **HTML5**
- **CSS3** (Flexbox, Grid, Animations)
- **JavaScript (ES6+)**

### Frameworks & Libraries

- **React.js**
- **Next.js**
- **Redux** and **Context API**

### Styling & UI Frameworks

- **Tailwind CSS** and **Bootstrap**
- **SASS/SCSS**

### Version Control

**Git** and **GitHub/GitLab**

## SOFT SKILLS

---

### Problem Solving

Ability to analyze complex issues and break them down into manageable tasks

### Communication

Clear and effective communication with team members, designers, and stakeholders

### Time Management

Prioritizing tasks effectively to meet tight deadlines

### Collaboration

*Working seamlessly with cross-functional teams (designers, backend developers, product managers)*

### Creativity

Bringing innovative ideas to enhance user experiences

## CERTIFACTES

---

### Front End Development Diploma

*Route Academy*

## LANGUAGES

---

**Arabic**  
Native

**English**  
Proficient
